

Matthew O'Leary

Computer Science (Major) and Business (Minor) Undergraduate | Trinity College Dublin

Dublin, Ireland | +353 89 206 5432 | matthewpoleary@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Computer Science (Major) and Business (Minor) student at Trinity College Dublin who builds full-stack products (Next.js, TypeScript, Supabase, Stripe) for real businesses. Creator of StudyWith, an AI tutoring platform. Seeking a summer 2027 internship in software, fintech or strategy. Available May – September 2027.

KEY SKILLS

- Languages: TypeScript, Java, SQL, ARM Assembly, Haskell, Prolog, C (basic); building Python skills via LeetCode
- Tools: Next.js, React, Tailwind CSS, Supabase (Postgres), Stripe, PostHog, Anthropic API, Git, Claude Code, Codex, Excel modelling
- Spoken languages: English, French, Spanish and Irish

EDUCATION

Trinity College Dublin | BA Computer Science (Major) and Business (Minor) | Sept 2024 – June 2028 (expected)

Current grade: 2.1. Top results: Programming Project 90%, Information Management 80%, Programming II 73%.

St Conleth's College | Leaving Certificate – 589 Points | Sept 2018 – June 2024

H1s in French, Spanish and Biology; H2 in Maths. John Kelly Award for Spanish. Head Boy and Senior Cup Rugby Captain.

PROFESSIONAL EXPERIENCE

Unio Wealth Management | Data Analysis Intern | May 2025 – Sept 2025, May 2026 – Sept 2026

- Cleansed and validated ~6,000 records for the data team, using SQL to query data and resolve data quality issues.
- Helped move pension payroll from paper-based to electronic processing, saving the finance department hours of manual work.
- Worked independently on assigned tasks and returned for a second summer in the role.

Trinity Student Managed Fund | Junior Analyst, Financial Banks | Sept 2025 – May 2026

- Carried out equity research on listed financial-sector banks as part of a student-run investment fund.

PROJECTS & VENTURES

The Driving School Dublin | Developer, Booking and Payments System | 2026 – Present

- Built a booking and payments system for a Dublin driving school (Next.js, Supabase, Stripe); pre-launch.
- Designed Stripe payments with webhooks as the single source of truth for booking state, syncing confirmed lessons to Google Calendar.
- Developed the live marketing site, which has drawn 1,200+ organic Google search clicks (Search Console).

StudyWith | Creator, AI-Powered Tutoring Platform | 2025 – 2026

- Built an AI-powered Socratic tutoring platform (Next.js, Supabase) with an AI tutor, Rooms and learning receipts.
- Added product analytics (PostHog) and iterated on the tutor's behaviour and UX across multiple versions.
- Pitched StudyWith to Irish grinds and tutoring providers, including an established grinds company.

Tally | Creator, Shift and Pay Tracking App | Sept 2026 – Present

- Built a mobile-first pay tracker (Next.js, TypeScript, Supabase) that calculates pay under Irish pay rules; I use it daily.
- Used row-level security tested across users and an AI budgeting assistant whose figures are computed in code.

OTHER EXPERIENCE

Rody Boland's Rathmines | Bartender & Waiter | Jan 2026 – June 2026

- Dealt with difficult customers calmly and professionally, resolving complaints and keeping service running smoothly as part of a small team.

The Swan Bar | Junior Bartender | Aug 2024 – May 2025

- Communicated with high volumes of customers and colleagues under pressure in a busy bar, handling cash accurately.

HOBBIES & INTERESTS

Distance running (marathon training), golf, padel and rugby, alongside a strong interest in Classics, chess and ancient history.
